**Vineyard Child Care Center
Millersville, MD**

2,500 sq. ft.
SD200, SZ300

“We absolutely love the outdoor play space it has added to our playground. Without the turf, we couldn’t allow the children to play on the hill area, because of the possibility of injuries. Now they are allowed to run and ride wherever they want. The turf dries from the rain quickly so there are no inside rain delays.

Our kids spend at least 3 hours of their day outside being active. It’s important to have that opportunity here in the daycare environment and we are happy SYNLawn was able to create a surface that improves upon our space and gives them the freedom to continue to be children.”
